Dr. Miles' Nervine Restores Health.

UNCLE EZEKIEL OBEAR, assessor and tax collector, Beverly, Mass., who has passed the 80th life mile stone, says: "Dr. Miles' Restorative Nervine has done a great deal of good. I suffered for years from sleeplessness and nervous heart trouble. Would feel weary and used up in the morning, had no ambition and my work seemed a burden. A friend recommended Dr. Miles' Nervine, and I purchased a bottle under protest as I had tried so many remedies unsuccessfully. I thought it no use. But it gave me restful sleep, a good appetite and restored me to energetic health. It is a grand good medicine, and I will gladly write anyone inquiring, full particulars of my satisfactory experience."

SCENE MOST EXCITING

Dreyfus Trial Opens With a Skirmish Favorable to the Defense.

MAUREL ON THE STAND

He Admitted Reading a Document at the Former Trial Which the Defense Was Not Permitted to See. Great Hubbub During Progress of Testimony.

Rennes, Aug. 25.—At the opening of the session of the Dreyfus courtmartial this morning a medical certificate, signed by doctors unknown here, was read, declaring that it was impossible for Colonel Du Paty de Clam to leave his bed and come to Rennes to testify.

M. Labri asked that two well known medical men should be instructed to examine him, but Colonel Jouanest refused. Rowland Strong, the English newspaper man, then deposed to the circumstances in which Esterhazy confessed to him that he wrote the bordereau.

Rennes, Aug. 25.—Yesterday's session of the Dreyfus courtmartial was marked by one of the most exciting scenes of the trial. The proceedings opened with a skirmish entirely favorable to the defense over Colonel Maurel, president of the courtmartial of 1894, who admitted reading one of the secret documents to the court which had not been seen by the defense. He protested that only one document was looked at, alleging that this sufficed to enable him to form a conviction that could not be shaken.

This protest made matters worse, because, as M. Labri pointed out, if he perused one it was his bounded duty to peruse all. Colonel Jouanest upheld Colonel Maurel in his refusal to indicate the nature of the document he read, but M. Labri announced that he would summon Captain Freystater, another member of the tribunal of 1894, and get his version of what then passed behind the backs of the counsel for the defense. Colonel Maurel felt his position keenly, and continually hesitated before replying to Labri's questions.

All this, however, was only preliminary to a fierce battle that ensued between M. Labri and General Mercier, the latter receiving reinforcements from General Rogot, General Gouze and General De Boisdeffre as well as invaluable assistance from Colonel Jouanest himself.

M. Labri took General Mercier over the whole ground of his previous deposition. This led to several sharp passages at arms between the advocate and Colonel Jouanest, who upheld Mercier in refusing to reply to several questions which, in the general opinion of those in the courtroom, were distinctly pertinent.

Whenever General Mercier was cornered he declined to answer, and Colonel Jouanest invariably supported him. M. Labri protested most energetically. His words and manner breathed the deepest indignation, but the president of the courtmartial was inflexible.

The intervention of Generals Gouze, Rogot and De Boisdeffre and Major Lauth, who in rapid succession mounted the stage or rose in their seats and interposed remarks, was very exciting, and carried the spectators along on a wave of breathless interest.

One after the other these officers would jump up and cry "I demand to be heard," and, without further waiting, ascend the steps of the platform and begin a statement in support of a brother officer. Sometimes four officers were on the stage at the same moment. It was a marvellous display of military clannishness. At one time a perfect

THE DOCTOR'S MISTAKE.

The doctor made a mistake in the number and called at the wrong house. No woman calls a doctor after she is once acquainted with the use of the "Favorite" Prescription in all diseases and drains common to the sex. Without humiliating questions or local examinations the cure is accomplished by the use of the "Favorite" Prescription supplemented by free medical advice if needed. This medicine is harmless in any condition of the system and can be taken without the slightest fear of bad consequences. It contains no whisky or alcohol. There is not an iota of anything narcotic in it. The relief it gives is permanent. In this it differs from many preparations which give temporary relief only by deadening the sense of feeling with narcotics, and the dangerous stimulants they contain create an appetite for strong drink. When a dealer offers a substitute for Dr. Pierce's Favorite Prescription, remember these facts.

When their diseases are deep-seated and of long standing, women will find it to their interest to write to Dr. R. V. Pierce, Buffalo, N. Y., who has had wonderful success in curing diseases of women. He gives advice free, and invites all to write him. Prompt, careful and personal attention is paid to each letter, and the fullest advice is always given.

"After five months of great suffering I write this for the benefit of other sufferers from the same affliction," says Mrs. H. A. Albrook, of Austin, Lonoke Co., Ark. "I suffered with our family physician without any good results, so I wrote Dr. R. V. Pierce. He sent me a bottle of his medicine, which I took. I took four bottles of Dr. Pierce's Favorite Prescription, four of his 'Golden Medical Discovery' and two of his 'Pleasant Pellets.'"

babel of voices reigned for several minutes until Colonel Jouanest intervened and restored order.

M. Labri's cross-examination was successful so far as it went, but Colonel Jouanest prevented him pressing his advantage to the utmost. In fact, Jouanest's hostile attitude toward the counsel for the defense then and during the cross-examination of the witness, M. De Grand Maison, evoked the severest criticism on the part of the public present and bodes ill for Dreyfus. Not only Colonel Jouanest, but the other judges displayed considerable impatience during Labri's scathing cross-examination, shifting restlessly in their seats and drumming the table with the tips of their fingers.

General Mercier faced Labri's fire with calm demeanor. Standing on the platform, his hands behind his back and his face only half turned toward his questioner. Once or twice a savage look in the eyes, an elevation in the tone and a swaying to and fro of the body, revealed the inner fires of resentment.

General Rogot faced the court with air of unblushing effrontery. His handsome, but unsympathetic features expressed the bitterest scorn as he spun around on his heel and, with his arms crossed, faced Labri or the audience or the judges. He is extremely vain, and is always striking attitudes for the benefit of newspaper artists, quite a number of whom regularly attend the sessions. His impertinent behavior was strikingly illustrated when he interrupted M. Labri's examination of General Chamoin, which resulted in Labri scoring heavily against Mercier, with the exclamation: "This examination is a waste of time."

As a matter of fact the examination of Chamoin showed Mercier in a very bad light, as it brought out that he had privately communicated to Chamoin, on the first day of the secret sessions, a report on the Paurzardi dispatch for insertion in the secret dossier. General Chamoin admitted that he did wrong in accepting the report, but pleaded ignorance in judicial matters.

The report consisted of three pages of which the second and third, Chamoin declared, contained fantastic and, in fact, false representations.

M. Labri brought General Mercier to the bar in reference to this. Mercier admitted that the reports emanated from Du Paty de Clam, but claimed that he himself did not understand its contents, though he thought it would be interesting and perhaps useful to Chamoin. This explanation was regarded as very lame, and, combined with other shady actions, would damn Mercier as a witness in the eyes of any impartial tribunal.

The press correspondent saw M. Labri yesterday afternoon and conversed with her regarding her husband's condition. She said he was progressing rapidly, though still suffering considerable pain. "The way he is recovering," she exclaimed, "seems to be almost miraculous."

LABORI'S SECRETARY

Paid a Visit to America to Secure Evidence Favorable to Dreyfus.

Seattle, Wash., Aug. 25.—M. Leon Bureau, the private secretary of Maitre Labri, the leading counsel for Dreyfus, who has been in Seattle visiting the French vice counsel, Dr. Monoda, has left for Paris.

In an interview M. Bureau admitted for the first time that his trip to the northwest was for the purpose of securing information of great value to Dreyfus. He has obtained it, and this explains his desire to reach home without loss of time.

"I have been to the Great Slave lake, in the northwest territory," said M. Bureau, "after information connected with the Dreyfus case. I hope to reach Paris before the case closes, but even if I do not, it will still be of value. I am unable to state the exact nature of the information I obtained, for, you know, we must guard against every contingent in this case, future as well as present."

"The impression that there was a conspiracy among the high army officers against Dreyfus, prior to the time he was condemned, is not in conformity with our belief or contention," said M. Bureau.

"It is true the proceedings by which he was degraded were illegal, but we do not think that any deep-dyed conspiracy has been hatched against him. It was a case of an innocent man being prosecuted, while the real criminal was in the background."

NO MORE PAY

Distribution of Money to Cuban Troops to Be Stopped.

Havana, Aug. 25.—Governor General Brooke has virtually decided not to make any payments to Cuban troops on the basis of additional rolls. The first payments brought to light such an amount of thievery and attempted swindling that he has ceased to consider the question of distributing what is left of the \$3,000,000 in supplementary payments. The sum now left in his hands he will probably use to assist wounded and deserving officers, who under the original arrangement were to receive nothing.

Most of the Cuban officers agree with a remark recently made by General Gomez. He said that the \$3,000,000 would prove more harmful than helpful, and the work of payment has revealed depths of depravity that the best friends of Cuba had not conceived could exist.

Fatalities in the Alps.

Vienna, Aug. 25.—Three fatal accidents have occurred in the Tyrolean Alps during the last few days. The victims include a landed proprietor named Maurer and his guide. The latter, it seems, was dismissed while en route by the tourist and has not been seen since.

SCHOOLS IN MANILA

Interesting Report From the Philippine Islands by Charles Denby.

NINE MONTHS' SCHOOLING

Regular Attendance of All Children Between the Ages of 6 and 12 Years Will Be Required—One Hour Each Day Devoted to the Study of the English Language.

Washington, Aug. 25.—An interesting description of the school system established in Manila by the United States military authorities is given in a communication received at the state department from Charles Denby, acting president of the Philippine commission, appointed by President McKinley. Under date of Manila, July 1, he forwards a copy of a printed circular issued by the provost marshal general, providing for the reopening of the public schools in Manila.

"It will be seen," he says, "that the teaching of the English language is compulsory. Under the Spanish government a small fee was charged for tuition, but now it is to be entirely free. The question of whether books shall be furnished free of charge is being considered by the military authorities. It is probable that parents who are able to pay for books will be required to do so, but the poor will not be charged therefor."

The circular is dated Manila, June 28, 1899, and is signed by Colonel Williamson, provost marshal general. It is printed in English, Spanish and Tagal, and provides in part as follows:

"Public schools will be reopened Monday, July 3, for the school year of nine months duration. Regular attendance of all children between the ages of 6 and 12 years will be required. One hour's instruction per day in all public schools shall be devoted to teaching the English language."

CACERES SURRENDERS

Victory For Jimenez Seems Assured In Santo Domingo.

Puerto Plata, Santo Domingo, via Cape Haytien, Aug. 25.—Generals Caceres, Vasquez and Broche, at the head of 500 revolutionists, appeared before Maoris. They left the great body of their troops at the entrance to the city and with 20 men, advanced to the governor's house demanding surrender.

Governor Castillo, thoroughly cowed, repaired to the plaza without making any resistance and the delivery of the park, fort, arsenal and government buildings was then effected. The revolutionists then formally occupied the surrounding country, meeting with no opposition.

In this way the revolution, strong and humane, is rapidly advancing, avoiding so far as possible the shedding of blood and winning sympathy by the character of its methods. The complete victory of the cause of Jimenez seems assured.

"LICKIN' AND L'ARRIN'"

Senator Fairbanks Addresses a School Reunion at Banta.

Banta, Ind., Aug. 25.—Senator Fairbanks spoke yesterday, by invitation, near this place, at the annual meeting of the surviving pupils of "Uncle Billy Dunn's schoolhouse." There was a large attendance and the reunion was one of the most successful ever held. The Whiteland band furnished the instrumental music and local singers the vocal music.

The senator's remarks were highly appreciated. He said, in part: "Lickin' and l'arrin' too often went together in the early days of common school. I speak from a somewhat ample experience. . . . The common school has, from pioneer days until now, propagated a wholesome respect for the state and a profound love of our beneficent

institutions. In a republic the influence of the common school is most beneficial. Great and important questions are now before us. They must be settled by the white light of reason, free from passion and prejudice. It is not what we wish, but what we should, that must be done. The authority of the United States must be acknowledged by all who are within its lawful jurisdiction. There is nothing which can go before this. When its authority is recognized, other questions affecting the welfare of the people everywhere will be given the fullest measure of consideration. The republic, whose chief cornerstone is the public schoolhouse, will always be brave enough and good enough to be just to all."

SAMOAN ISLANDS

Judge Chambers Talks of Conditions Existing Therein.

Birmingham, Ala., Aug. 25.—Hon. W. L. Chambers, chief justice of the Samoan Islands, is spending several days in the city on private business. He is in this country, he says, on a 4-months' leave of absence.

Regarding conditions in the islands when he left, Judge Chambers said that they were peaceful and had been such ever since the visit of the international commission. But disturbances in the islands may occur at any time until their status is definitely fixed.

Referring to the attitude of the Germans at Samoa, Judge Chambers spoke cautiously, saying:

"The Germans, whatever their attitude might have been before the visit of the international commission, have been friendly ever since that time, and we have no right to presume that they will act otherwise."

Judge Chambers, on the subject of expansion, said:

"I am surprised that the south, above all sections of the country, is not apparently in favor of the United States holding on to everything it has in the Pacific. With the Nicaragua canal to aid us, we of the south with our expanding cotton, lumber and iron business, have a grand opening in the markets of the Pacific, including the Philippines, Samoa and the rest."

Governor Shaw Denounced.

Des Moines, Aug. 25.—The National Union Veterans' union yesterday adopted resolutions denouncing Governor Shaw for appointing J. Rush Lincoln, an ex-confederate, as brigadier general of Iowa troops when they were called into service at the opening of the Spanish war. The governor defends himself by saying Lincoln was conceded the best military man in the state.

Cape Town, Aug. 25.—A dispatch from Bulawayo says that a Dutchman named Petrus Viljoen was charged there yesterday before a local magistrate upon a warrant signed by the British high commissioner, Sir Alfred Milner, with inciting the natives of Bechuanaland to rebel against the British authorities. The man was remanded.

About one month ago my child,
which is fifteen months old, had an at-
tack of diarrhoea accompanied by
vomiting. I gave it such remedies as
are usually given in such cases, but as
nothing gave relief, we sent for a phy-
sician and it was under his care for a
week. At this time the child had
been sick for about ten days and was
having about twenty-five operations o.
the bowels every twelve hours, and we
were convinced that unless it soon ob-
tained relief it would not live. Cham-
berlain's Colic, Cholera and Diarrhoea
Remedy was recommended, and I de-
cided to try it. I soon noticed a
change for the better; by its continued
use a complete cure was brought
about and it is now perfectly healthy.

A Card.

To THE PUBLIC:

I am reliab y informed that some of
the agents at Seymour representing
foreign life insurance companies have
recently traduced and slandered the
Reserve Loan Life Insurance Company
of Indianapolis.

The object, if one will stop a moment
to think, is clearly to dissatisfy policy
holders in order that the business may
be secured to foreign companies and
the commissions secured by the men
circulating the slanders. It is entirely
a movement for personal profit.

This is called "twisting," and here is
what the Commissioner of Insurance of
the State of Illinois says about it in his
annual report:

"The twister does not seek impaired
or doubtful lives but strives for the best
risks in his poaching; he makes a point
of discouraging the policy holder of a
rival company, impair his confidence in
what he already has, and by insinua-
tion, innuendoes and even bare faced at-
tacks upon rival companies, weakens
and impairs the faith of the people in
all life insurance. He is the anarchist
in life insurance."

The public may judge for itself if such
contemptible methods should be en-
couraged. The foreigners should have
no more rights, character or standing in
Indiana than the Indiana people them-
selves.

These attacks are not only a bare
faced slander upon The Reserve Loan
Life Insurance Company but likewise
upon the laws and officers of the state
government. They should be rebuked
by every loyal and patriotic citizen of
the state.

Any policy holder in The Reserve
Loan Life Insurance Company who is
at all doubtful or dissatisfied is invited
to visit the Home Office at Indianapolis
and satisfy himself as to the represen-
tations made to him. We also request
every policy holder who has been ap-
proached with slanderous tongue by
agents of foreign companies to write us
giving the name of the man, the com-
pany he represents and the substance of
his utterance. By doing this you not
only perform a patriotic act for the
good name of our state but also do a
favor to the company in which you are
insured.

W. K. BELLIS, Secretary.

We have used Chamberlain's Cough
Remedy in our home for many years
and bear cheerful testimony to its val-
ue as a medicine which should be in
every family. In coughs and colds
we have found it to be efficacious and in
croup and whooping cough in child-
ren we deem it indispensable.—H. P.

A device to which the Pennsylvania
railroad is giving an extensive trial
promises to relegate to the past the dis-
comforts of the fast holding car win-
dows. Two small handles project from
the window sash. These easily press
together, and by so doing a catch is re-
leased, and the window then automati-
cally rises. This is the result of weights
on pulleys on the sides.

Perservation Of Medicines.

When the preparation of medicinal
compound is completed, the first con-
sideration is to look after its preserva-
tion. Some preparations rapidly de-
teriorate, are affected by exposure to
light or contact with the air. Others
improve upon long standing and do
not reach their full effectiveness un-
til six months or a year after their
manufacture. Proper corkage and
storage in a cool place is essential.
We observe all the little points in car-
rying out our processes and we know
that what we dispense conforms to the
standard of accuracy and purity.

Groom Failed to Appear.

both colored, last night were a terially
interrupted by the non-appearance of
the groom. The wedding guests gath-
ered a bountiful supper had been pre-

wedding garments, waited but the groom
came not. He left in the forenoon for
Brownstown, or said he was going there,
to get the license, but the indications
are that he never got there. The bride to
have been is much aggrieved and cannot
understand the flight of Woods. Woods
came here some time ago and was tem-
porarily employed at the Hotel Jonas.
He claimed that his home was in Topi-
